To whom it may concern-

I have had the pleasure of teaching Hardik Bhatt for two digital media under graduate courses (DIGM-240, and currently DIGM-241). He has been a excellent student. I would like to take this opportunity to recommend Hardik for Drexel's Digital Media graduate program.

Hardik is a dedicated student and thus far his grades have been outstanding. In class, he has proven to be a forward-thinker and contributes valuable ideas to in-class discussions. He has shown, time and again, his ability to develop creative solutions for project assignments, then the determination to problem-solve the technical roadblocks as he executes his designs.

Hardik has also taken the initiative to work on extra assignments in order to increase his understanding of the subject. I am confident that he will continue to excel in his studies.

It is for these reasons that I offer a recommendation for Hardik. His drive and abilities will truly be an asset to the program.

If you have any questions regarding this recommendation, please do not hesitate to contact me.

Sincerely,

Troy W. Finamore
